Candidate Name: Craig A. Voll, Jr., PhD, ATC, PT

Candidate for: District Director-Elect

State: Indiana

Email Address: vollc@uindy.edu

Name and Places of Athletic Training Duties:
University of Indianapolis
Purdue University

Summary Statement for GLATA Office:
My name is Craig Voll and for the past 10 years I have been blessed to serve as President the Great Lakes Athletic Trainers Association (4 years) and President of the Indiana Athletic Trainers Association (6 years). Furthermore, I have served in Indiana as IATA Education Committee Chair and as Chair of the IATA Governmental Affairs Committee. Additionally, I have served at the National level as a member of the NATA State Association Advisory Committee (2011-14), and at the District Level as Indiana State Representative to GLATA (2008-10), member of the GLATA Education Committee (2010 – 2012; 2016 - present) and Chair of the GLATA Memorial Resolutions Committee from 1997 to 2012. The motivation behind me submitting my name for consideration as District Director-Elect, is that I am excited about the possibilities and challenges presented by serving the membership of the GLATA. John Gardner once wrote, “We are continually faced by great opportunities brilliantly disguised as unsolvable problems.” One such challenge facing GLATA is realizing the goal of athletic trainers being universally recognized as health care professionals! If athletic training is to progress forward and earn the respect and recognition within the health care arena we deserve, 100% of certified athletic trainers, regardless of practice setting, MUST have an NPI number. Edmund Burke was absolutely correct when he said, “Nobody makes a greater mistake than he who did nothing because he could only do a little.” As GLATA President, I continuously asked all members to remember that the little you can personally do for the profession of athletic training (like attaining your NPI number), may be the one thing that makes our efforts a success. Success, therefore, ultimately depends upon the fullest participations of all our members working together and policing ourselves. Working together, I am confident we will make a difference and strengthen our great profession. In fact, I can assure you that I will not personally be satisfied until possession of an NPI is a requirement not only for NATA membership but to renew your certification through the BOC! Another challenge facing the GLATA and NATA is decreased participation and apathy among the membership. The spirit of volunteerism and a sense of compassion are deeply ingrained in us as professionals and are vital parts of our character. It is what makes me immensely proud to be an athletic trainer and is why there is nothing else that I would rather be doing. I can honestly say that the ten years serving the athletic trainers of GLATA and in the state of Indiana, were some of the most rewarding and fulfilling times of my career. It is inspiring to work with and for a group of people who understand that there is no substitute for the gift of service given from the heart.
Furthermore, it is my firm belief that in regards to service in an association, especially one like GLATA, volunteers are seldom paid not because they are worthless, but because they are priceless. The initiative of involving more members within the association, especially younger members, was the cornerstone of my GLATA and IATA presidencies. During my time as President of both the GLATA and the IATA numerous members with no previous volunteer experience at the district or state level agreed to serve. It is that accomplishment that I made the hallmark of my presidency, and if elected will continue to be a cornerstone of my tenure as your GLATA District Director. In closing, I would like to say that I agree with John F. Kennedy when he said, “Change is the law of life, and those who look only to the past or present are certain to miss the future.” I also believe that the future always seems to arrive a little before we are ready to give up on the present. I truly believe that the Great Lakes Athletic Trainers’ Association cannot progress by living in the past. I also refuse to believe that the best days of the GLATA are behind us. The GLATA has a rich history of cultivating outstanding and dedicated leaders who have gone on to do great things at the state, district and national level. I am running for the position of GLATA District-Director-Elect because I believe we have the potential to continue moving this district forward as the preeminent district organization in the National Athletic Trainers Association. Over the years we have overcome many obstacles and achieved major accomplishments, but we need to continually forge ahead as many challenges are looming in the years to come. It will be the responsibility of the person elected by the membership as District Director-Elect to be focused on that future. I for one know I am up for that challenge!

**Schools Attended:**
Eastern Michigan University  
Bachelor of Science in Sports Medicine - 1993

Eastern Michigan University  
Master of Science - 1998

Purdue University  
Doctor of Philosophy - 2015
